

2.4 HP

NEW!

UT8784 Grinder Series

Introducing the NEW Universal Tool 8784 series 2.4 HP angle grinder! Designed for the production environment - built for serious material removal. The 2.4HP governed motor provides stall-free operation while its reduced weight, noise, and vibration offers operator safety & comfort, while increasing productivity. The quick-adjust guard for 4", 4-1/2" and 5" wheels requires no tools and the spindle lock promotes rapid disc change.
